

Mystery Quilt – Step 2

Mark a diagonal on the remaining eighty-two 5 inch squares of the light fabric. Match up with a dark 5 inch square and sew on either side of the drawn line. Cut apart and iron to the dark. You will have 164 of these half square units. Trim these units to 4 1/2 inches square.

Next you will make a four patch unit composed of two half square sub units and two four patch sub units as shown. This square measures 8 1/2 unfinished. Make 64 of these squares.
